## **Rokobili Power Station Perimeter Fencing - Upgrade**

### **Scope of works**

EFL invites tenders from interested parties for upgrading existing perimeter fence at Rokobili power station.

A perimeter fence already exists at Rokobili PS but certain sections of the fence need to be upgraded to fully secure the area.

#### **For new poles:**

Install new poles, along with concrete fill for all the posts as per existing design, and provide additional bracing for the poles. Supporting poles to have cover/caps to prevent water damage.

#### **For Chain Link:**

Install plastic coated chain-link on existing and new fencing perimeter, No.8 steel wire to run across the whole length of the perimeter at top, middle and bottom sections of the fence. Bottom part of the fence is to be secured to the ground at intervals of 3m to prevent animal entry from the bottom.

#### **For Barbed wire:**

3 rows of barbed wire to be running on top the fence along the entire perimeter.

#### **For Gate:**

The gate and hinges to be replaced along with a door on the gate.

**All extra clippings and other materials are to be cleared from site once construction of fence is complete. The area in the immediate vicinity of the fence also needs to be cleared (creepers and small trees/shrubs) to prevent future damage to the fence.**

**SITE INSPECTION IS MANDATORY.**

ENERGY FIJI LIMITED

**Upgrading of Existing Perimeter Fence at Rokobili Power Station.**

<b>Item</b>	<b>ITEM DESCRIPTION</b>	<b>UNIT PRICE</b>	<b>TOTAL PRICE</b>
