Unit Leader Planning & Development
Energy Fiji Limited
Suva.

Dear Sir

Re: **Telecom Fiji Underground Infrastructure along Durucoko (PT. OF) to Sawani Serea Road**

Reference is made to your request for a letter of clearance regarding Telecom Fiji underground infrastructure along Durocoko (PT.OF) Sawani Serea Road.

Our records state that we have Telecommunications underground Infrastructure along LHS from Princess Road junction right up to the Sawani Serea Bridge and this is reticulated overhead to ACS School Road junction as indicated in the attached plan.

Kindly requesting if you could indicate positions of your plant on a copy of the attached plan for our record keeping. It is strongly recommended that EFL to convene a meeting with all authorities to identify any shortcomings or discuss and possible hindrance to our plants and support the smooth flow of your works.

In future EFL to contact Telecom Fiji Planning for the trenching excavation works, call our NOC Team on our helpline number 159 prior to commencement of works to avoid damages to our services.

Telecom Fiji hereby gives a written clearance to Energy Fiji Limited provided you compile to the above terms.

Please contact Mr. Mitieli Delasau on telephone number 3210234/8369153 or email miti.delasau@telecom.com.fj should you have any uncertainties.

Yours faithfully

.....
Mitieli R. Delasau
