

SUPPLY OF PAINTS FOR FEA's HEAD OFFICE PAINTING WORKS

Tender Number: MR 94/2015

1. BACKGROUND

Fiji Electricity Authority (FEA) is a statutory body vested with the responsibility for the provision of electricity supply throughout the Fiji Islands.

Fiji Electricity Authority desires to receive tender proposals from the local paint distributors/suppliers to supply paints for the FEA Head Office building refurbishment.

2. LOCATION

FEA's Head Office at 2 Marlow St, Suva

3. PURPOSE

- a. Supply of paints for exterior painting of the building, the areas covered are roof, fascias, exterior walls, columns, exterior doors, retaining walls, guardhouses, garage, fence and gates.
- b. Calculate the necessary volume required for the painting works taking into considerations, methods of painting and percentages of paint loss during application and the paint DFT needed to be achieved.
- c. To propose paints specification suitable for painting of Head Office external surfaces and the forecast life span of paints under extreme environmental conditions.
- d. To supply relevant information/specification on procedures of carrying out the following:
- e. To provide information on all necessary equipment/plant tools required for the painting works.
- f. Supervise painting works on behalf of Fiji Electricity Authority.
- g. To provide information on methods of painting, spraying, using paint brush or roller.
- h. Provision of your representative to carry out all necessary Quality Checks during painting works, progress of painting works.
- i. Provide MSDS of paint supplied.
- j. All paints are to be received by the Property Officer
- k. Provide the warranty on all the paints.

4. SUPPLYING OF PAINTS

Bidders are to supply water based, oil base and epoxy based paints, including necessary primer and final coats to paint the following building structures.

5. AREAS COVERED

a. External

- Roof and fascia (Main building and the garage)
- Walls (concrete walls and glass wall aluminum frames)
- Columns
- Doors and windows
- Rear Executive Car Park Steel columns and railings & retaining wall
- Guard Houses
- Gates and Fences

6. PRODUCT DELIVERY AND STORAGE

- a. Deliver all painting materials in sealed, original labeled containers bearing manufacturer's name, brand name, type of paint or coating and color designation, standard compliance, materials content as well as mixing and/or reducing and application requirements.
- b. Take all necessary precautionary and safety measures to prevent fire hazards and spontaneous combustion and to protect the environment from hazard spills. Materials that constitute a fire hazard (paints, solvents, drop, clothes, etc.) shall be stored in suitable closed and rated containers.

7. VOLUME OF PAINTS REQUIRED

Bidders are to physically obtain exact reading during site visits. FEA will not be responsible for any shortage supply of paints; bidders will have to provide the needed volume at their own cost if less volume is quoted. Therefore bidders must ensure that paints supplied are adequate for all painting works:

8. PROPOSE PAINT SPECIFICATION

Each bidder must submit paint specification of paint proposed to supply including the historical performance and successful projects. Specification must indicate that paint had proven success in applying for the external surfaces, which will last for a minimum of 15yrs under extreme environmental conditions. Specification must also include;

- Product Specification:
- Intended Uses
- Practical Information of the product
- Regulatory Data
- Surface Preparation
- Application
- Product Characteristics
- Systems Compatibility
- Safety Precautions

9. PAINTING PROCEDURES

Bidders must indicate surface preparation methods and procedures of the existing surface of the building.

10. EQUIPEMNT AND TOOLS

Bidders MUST also indicate all necessary tools/plants and equipment that will be used for the painting works.

11. QUALITY CHECKS

Bidders must submit quality assurance program/check lists to assure a maximum performance of the product (paint) that is proposed to supply. Also bidder MUST allow personnel during the refurbishment works to manage quality assurance ensure necessary DFT of coats.

12. MATERIAL SAFETY DATA SHEET (MSDS)

Bidders must submit MSDS of the proposed product (paint) to supply.

13. STANDARDS

Following standards or equivalent must be followed and observed when proposing to supply paints and relevant surface preparation methods:

AS 1580	Methods of test for paints and related materials
AS 1627	Code of Practice for preparation and pre-treatment of metal surfaces prior to protective coating
Part 1	Degreasing of metal surfaces using solvent or alkaline solution
Part 2	Power tool cleaning of steel surfaces
Part 4	Abrasive blast cleaning of steel surfaces
AS 2310	Glossary of paint and painting terms
AS 2311	The painting of buildings
AS 2700	Colours for general purposes.

14. SAMPLES

Before commencing painting, provide on a representative portion of substrates(s), supply 300 x 300mm samples for approval by the Property Officer of the total coating system which meets the specified requirements for colour, gloss and texture for each different colour selected to be applied.
